## SUMMARY

I'm a frontend developer who enjoys building visually engaging and interactive web experiences. I focus on clean UI, smooth animations, and responsive layouts using modern web technologies. I've deployed multiple frontend projects and enjoy translating design ideas into working, user-friendly websites. I thrive in fast-paced environments like hackathons where rapid execution, clarity, and teamwork are essential.

## PROJECT EXPERIENCE

LaFolie – Responsive Business Website

Live: https://esha-sha.github.io/LaFolie-website/

- Designed and developed a fully responsive website using HTML, CSS, and JavaScript
- Focused on clean layout, typography, and consistent visual hierarchy
- Implemented interactive UI elements and smooth transitions for better user experience
- Optimized the website for multiple screen sizes and devices
- Deployed the project using GitHub Pages

3D Image Slider

GitHub: https://github.com/esha-sha/A-3D-Image-Slider

- Built an interactive 3D-style image slider using HTML, CSS, and JavaScript
- Implemented CSS transforms and animations to create depth and motion effects
- Focused on performance and smooth transitions
- Structured code for easy customization and reuse

Additional Frontend Projects

GitHub: https://github.com/esha-sha and https://github.com/eshavalunj

- Developed multiple frontend practice projects exploring layouts, animations, and UI interactions
- Experimented with modern CSS techniques and JavaScript logic
- Continuously improving code quality, responsiveness, and visual polish

## SKILLS

Programming Languages

JavaScript, HTML5, CSS3

Frontend Development

Responsive Web Design, UI/UX Fundamentals, Animations & Transitions

Frameworks & Libraries

React.js (Basics)

Tools & Platforms

Git, GitHub, GitHub Pages, VS Code

## EDUCATION

Bachelor of Technology (B.Tech)

Information Technology – *Direct Second Year*

Mumbai, India

Diploma in Engineering

Information Technology

Maharashtra state board of Technical Education

## EXPERIENCES

- Nilede Technologies-Web Dev Internship
  - Designed and implemented **responsive frontend layouts** for web applications
  - Improved UI consistency, spacing, and visual hierarchy across pages

## INTERESTS

- Interactive & animated web interfaces
- Design-led frontend development
- Hackathons & rapid prototyping
- Exploring React and full-stack integrations
